Journal of Food Engineering **13** (1991) 321–322

CONTENTS OF VOLUME 13

Number 1

Modelling of Extrusion Cooking of Cereals Using Response Surface Methodology 1
J. VAINIONPÄÄ (Finland)

Kinetics of Texture Change During Smokehouse Cooking of Meat Emulsions Containing Various Fillers 27
L. R. CORREIA, G. S. MITTAL, W. R. USBORNE & J. M. DEMAN (Canada)

Measurement of Flow Curves for Model Liquids and Real Food Systems with Two Commercial Viscometers 57
K. AUTIO (Finland) & M. HOUSKA (Czechoslovakia)

Prediction of Freezing and Thawing Times of Foods by Means of a Simplified Analytical Method 67
V. O. SALVADORI & R. H. MASCHERONI (Argentina)

Number 2

Kinetics of Color Development in Aqueous Systems at High Temperatures . . 79
S. GHAZALA, H. S. RAMASWAMY, F. R. VAN DE VOORT & T. AL-KANANI (Canada)

Direct and Indirect Determination of the Effective Thermal Diffusivity of Granular Starch 91
A. E. DROUZAS, Z. B. MAROULIS, V. T. KARATHANOS & G. D. SARAVACOS (Greece)

Shrinkage Effect on Drying Behavior of Potato Slabs 103
CONSTANTINO SUAREZ & PASCUAL E. VIOLLAZ (Argentina)

Comparison of Regression Methods for Fitting the GAB Model to the Moisture Isotherms of some Dried Fruit and Vegetables 115
CHRISTINE M. SAMANIEGO-ESGUERRA, IAN F. BOAG & GORDON L. ROBERTSON (New Zealand)

Thermal Analysis of a Passive Heating System for Food Distribution . . . 135
B. MOSHFEGH, D. LOYD & B. KARLSSON (Sweden)

Rheological Behaviour of Tamarind (*Tamarindus indica*) Kernel Powder (TKP) Suspension 151
SILA BHATTACHARYA, S. BAL, R. K. MUKHERJEE & SUVENDU BHATTACHARYA (India)

Journal of Food Engineering (**13**) (1991) — © 1990 Elsevier Science Publishers Ltd, England. Printed in Great Britain

Number 3

Shape Factors for the Freezing Time of Ellipses and Ellipsoids 159
Q. T. PHAM (New Zealand)

The Physical State of Water Sorbed at High Activities in Starch in Terms of the GAB Sorption Equation 171
ERNESTO O. TIMMERMANN & JORGE CHIRIFE (Argentina)

Vibration Induced Settling of a Sphere in a Herschel–Bulkley Fluid . . . 181
S. PAUL SINGH, AJIT K. SRIVASTAVA & JAMES F. STEFFE (USA)

Mass Transfer in Cellular Tissues. Part I: The Mathematical Model . . . 199
MICHÈLE MARCOTTE, CHRISTIAN, J. TOUPIN & MARC LE MAGUER (Canada)

Research Note

Measurement and Comparison of Density, Specific Heat and Viscosity of Cow's Milk and Soymilk 221
A. O. OGUNTUNDE & O. A. AKINTOYE (Nigeria)

Book Reviews

Industrialization of Indigenous Fermented Foods. Edited by K. H. Steinkraus, Marcel Dekker Inc., New York, 1989 231
(Reviewed by J. D. Owens)

Coffee — A Six-part Treatise. Edited by R. J. Clarke and R. Macrae, Elsevier Science Publishers, London, 1987
Volume 2: Technology 232
Volume 5: Related Beverages 233
(Reviewed by Ronald Jowitt)

Fouling and Cleaning in Food Processing. Edited by Heinz G. Kessler and Daryl B. Lund, 1989 235
(Reviewed by Ronald Jowitt)

Food Additives. By A. Larry Branen, P. Michael Davidson and Seppo Salminen, Marcel Dekker Inc., New York, 1990 238
(Reviewed by D. A. Cronin)

Number 4

Some Physical Properties of Tamarind (*Tamarindus indica* L.) Juice Concentrates 241
B. MANOHAR, P. RAMAKRISHNA & K. UDAYASANKAR (India)

Effect of Oxygen and Temperature on the Oxidation Rate during Darkening of Ripe Olives 259
P. GARCÍA, M. BRENES & A. GARRIDO (Spain)

Drying Kinetics of Corn in Contact with a Solid Adsorbent 273
MARÍA, C. FALABELLA, CONSTANTINO SUAREZ & PASCÚAL E. VIOLLAZ (Argentina)

The Measurement and Prediction of Thermal Properties of Food during Freezing and Thawing — A Review with Particular Reference to Meat and Dough 285
IRENE LIND (Sweden)
